Recording Charts  
Refracometers  
Sight Glasses  
Temperature Recorders  
Thermometers  
Turbine Meters

## What makes us # 1 in Pressure Recorder Rental Service in Central Alberta?

### 1) Instrument Housings

Our recorders are enclosed in sturdy cases, so the recorder gets to your job site in the same condition as it leaves our shop.

### 2) Well Equipped

Recorders are provided with high pressure hose, a two valve manifold, swivel connectors to 1/4" or 1/2" NPT, and charts are always included.

### 3) Accuracy

Each recorder is calibrated by qualified personnel before it leaves the shop. Precise instruments and methods are used to ensure highly accurate recorder readings. Each recorder comes with a current certificate of calibration.

### 4) Availability and Service

A large variety of pressure and temperature ranges and clock speeds to cover most recording needs

- Pressure 0 to 25 PSI up to 20,000 PSI
- Temperature 0-100 F
- Clock speeds 60 minutes up to 31 day rotation
- Dual pressure recorders
- Pressure and Temperature recorders
- Over a 100 elements in stock
- Custom configuration available
- 24 HOUR SERVICE

### 5) We Care!
